

BAN Alert #1, April 29, 2004 New Bean Registration

The great northern bean variety listed as L98E212 in BAN of March 1, 2004, has been registered on April 29, 2004 by the Variety Registration Office of the Canadian Food Inspection Agency (reg. number 5793). The variety will be licensed to Agricore-United and named AC Resolute. This is an early-maturing, upright, bacterial wilt resistant great northern bean, specially suitable for narrow row production.
